

# EP-900 ELECTRIC PRESS

## EP-900 Electric hand feed press

The EP-900 is an economical table mounted electric press suitable for setting eyelets, grommets, rivets and snaps or any other fastener that needs pressure for setting. The setting dies are easily changed and adjusted making the machine extremely user friendly. The machine is operated by foot pedal and is easy to use.

The EP-900 features a ring guard sensor that prohibits the machine from cycling if fingers or other foreign objects interfere with the dies. The machine also has an automatic double punch prevention safety. The EP-900 comes standard with a laser locating light to position your work. It runs on standard 110V current and can be plugged into any standard wall outlet.

**Size Capacity:** 1/8 inch diameter eyelets to a #8 Rolled Rim Grommet  
1 3/32 inch hole diameter

**Advantages:** Economical entry level hand feed machine. Strong, dependable and very easy to change fastener sizes. Capable of setting a very wide range of fasteners
