

J-229 SINGLE FEED ELECTRIC RIVET MACHINE

J-229 Single Feed Electric Powered Rivet Setting Machine

The J-229 single auto feed electric rivet setting machine will punch a hole and set rivets in all types of materials including leather, plastics, textiles and canvas in one stroke. Like all auto feed rivet machines, the J-229 is set up to run one diameter rivet size only but is capable of running different length rivets with the same barrel and head diameters. Additional rivet feeders can be purchased to change rivet sizes quickly and easily making this machine very versatile. Your choices of rivet settings are roll set, scored set and a cap setting. All you need to do to change settings types is to change the bottom die which can be done in minutes making the machine very versatile. A ring guard safety device is standard on the J-229.

Size Capacity: The J-229 can be set up to run most popular size rivets.

Advantages: Cost effective, and easy to operate.
