

J-380 ELECTRIC EYELET BOOT HOOK MACHINE

J-380 Electric Powered Auto Feed Boot Hook Setting Machine

The J-380 is an electric powered single feed boot hook machine capable of punching and setting boot hooks into most leather. This machine was designed specifically for the shoe industry, but can be used for other applications as well. The J-380 comes complete mounted to a stand with a safety device and laser pointer. The machine punches and sets in one stroke. Like all auto feed machines, the J-380 is set up to run one size boot hook only.
