

J-98 ELECTRIC DUAL FEED RIVET MACHINE

J-98 Dual Feed Electric Powered Rivet & Cap Setting Machine

The J-98 is an electric powered dual feed rivet machine capable of punching and setting rivets and caps into leather, cloth, plastics, nylon webbing and most other materials. The machine punches and sets in one stroke. Like all auto feed machines, the J-98 is set up to run one size rivet only but has the capability to run different length barrels of the same size rivet.

Size Capacity: The J-98 can be set up to run most popular size rivets and caps

Advantages: Cost effective, easy to operate and increases production with dual feeders.

Maintenance: Lubrication with 30wt motor oil before use is recommended

Optional Equipment:

- * Mobile stand with casters
- * Work plate with back and side gauges
- * Laser locating light
- * LED table work light

Specifications:

Dimensions: 26 inches deep, 36 inches wide, 56 inches high

Weight: 260 pounds

Electrical requirement: 110 volt single phase standard wall outlet
