

SISKA RAPID EYELET SETTING MACHINE

Siska Rapid Eyelet Setting Machine

This fully automatic electric powered eyelet machine punches, spaces, feeds & sets up to 300 eyelets per minute. It is the fastest sequential eyelet machine available in any market. This machine is a staple in the belt manufacturing industry and a version for shoe manufacturers is available to the Footwear Industry. Spacing between eyelets is fully adjustable from 5/8 of an inch to 1.125 inches between hole centers. Additional eyelet feeders can be purchased to change eyelet sizes quickly and easily making this machine very versatile. A heavy duty machine stand is standard. The eyelet feeder can be easily removed and the machine can be used solely as a hole puncher for 9 different size round holes and 4 sizes of oblong holes.

Size Capacity: 3/16 inch to 5/16 inch eyelets

Advantages: The fastest fully automatic eyelet machine available. An increase in production of 5 to 10 times that of a standard auto feed eyelet machine

Maintenance: Lubrication with 30wt motor oil before use is recommended

Optional Equipment: Interchangeable raceways to run different eyelets are available

Specifications:

Dimensions: 36 X 28 base, mounted on table: 48 inches high

Weight: 185 pounds

Electrical requirement: 110 Volt AC single phase – standard wall outlet

Motor Size: 1/3 HP
